**The protection of your data, simply!**

At the service of SMEs and SMLs, Cybertys solves your data-protection at the best price.

# Cybertys, at every stage of data

# Our mission for SMEs

At Cybertys, we are committed to offering you **accessible** solutions at the **best price**. Small structures deserve protection that matches their ambitions.

Our tools are **adapted** to your **needs** and your **reality**!

# Your needs

You are an **industrialist** and you have been **accumulating** overlapping **computer systems and networks** for decades. The risks of each technology do not add up but multiply!

**Cybertys** helps you to put your **data** and that of your partners **in order**, without limiting your potential.

# Our Experience

More than **20 years of experience** in software publishing and integration have provided us with the know-how and field expertise necessary to guarantee **the proper operation** of critical industrial and real-time facilities.

These techniques can be applied to **any professional environment** for **maximum availability** of the digital information system.

# Our Services

You have **services hosted** at Cybertys or on your premises in the form of quarterly or annual **economic** packs from **€39 excl. tax/month/service**

Pack 3: €109 excl. VAT/month

Pack 5: €149 excl. VAT/month

under annual contract for 15 identified users

# Your satisfaction

Manage and control your industrial activity with **peace of mind without** IT administration **worries** by having your **main** internal and external **services backed up** and secured on several sites spread over **metropolitan France** or on your premises under our supervision

# Industries

**Food**

**Manufacturing**

**Aeronautics**

**Health**

**Maritime**

**Energy**
